TECHNICAL DATA SHEET

Product: DINITROL 958

Characteristics: DINITROL 958 is a quick drying waterbased stone chip

protection product. DINITROL 958 provides a black elastic film which efficiently protects the vehicle body from stone ships and road salt. DINITROL 958 is environmental friendly as it is free from solvent.

Range of use: DINITROL 958 is designed for treatment of cars, buses,

trucks and other vehicles, on line application as well as in the aftermarket. The product is designed to protect the most exposed parts such as door sills, spoilers, bumpers,

wheel arches, edges.

DINITROL 958 can after drying be over painted with most

car lacquers.

Application: DINITROL 958 can either be applied with brush, low or

high pressure equipment. The spraying is recommended

airless with a product temperature of +15°C-+20°C.
